

**EXPOSE EXXON**

**Exxon DisCredit Card**

**ExxonMobil** Keeping America  
Dependent On Oil Since **1921**

*Lee R. Raymond*

**The holder of this card has used it in short-sighted pursuit of the bottom line at the expense of our nation's energy policy by:**

- Failing to use its record-breaking profits to invest in alternative energy sources while consumers and small businesses pay the price for our dependence on oil.
- Failing to pay \$4 billion in damages to people injured by the Exxon Valdez oil spill.
- Pushing to open the Arctic National Wildlife Refuge to drilling --even after the other oil companies have concluded the costs far outweigh any benefit.
- Funding junk science and think tanks to discredit the fact of global warming.
